

RSB delegation visits Sheikh Mohammed Bin Rashid Solar Park

On the 23rd of February the RSB aid a visit to the 200MW solar photovoltaic plant under construction at the Sheikh Mohammed Bin Rashid Solar Park. The board of directors, Executive Director and members of the RSB team met representatives of the plant's operator, Shuaa Energy 1, discussed the technologies employed and learned of the health and safety performance of the construction phase. The RSB licensed Shuaa Energy 1 as Dubai's first independent power producer in June 2015. The plant will have its official opening later in March when it will begin commercial operation supplying power to the DEWA grid.
